

DATA CABLE CAPACITY

BASE COVER CAPACITY

B1 and B2 Base

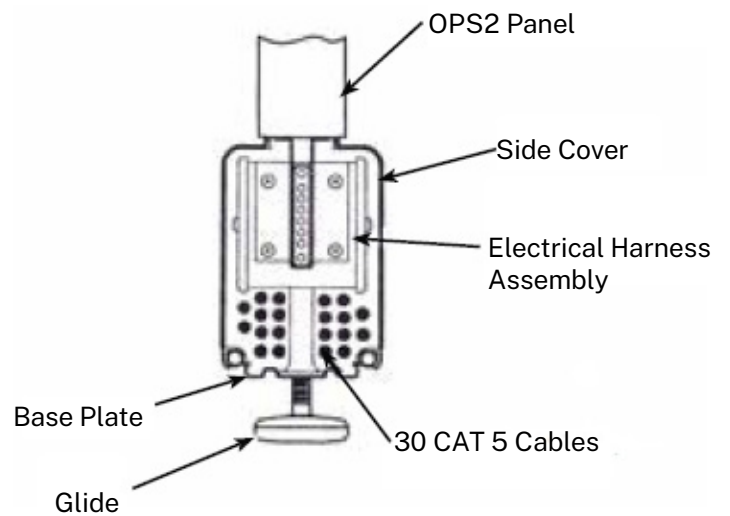

Powered panel bases can hold approximately (30) CAT 5 cables. (Example shown to the right)

Non-powered panel bases can hold approximately (60) CAT 5 cables.

Thin Base

Powered panel bases can hold approximately (15) CAT 5 cables.

Non-powered panel bases can hold approximately (30) CAT 5 cables.

POWER POLE CAPACITY

CF4 - Approximately (60) CAT 5 cables with the shielded power feed.

CF4N - Data pole only approximately (70) CAT 5 cables.

CF2 - Approximately (12) CAT 5 cables with shielded power feed.

CF2N - Data pole only approximately (25) CAT 5 cables.
